

Seventh Framework Programme 2007-2013

Demonstration Programmes in the Security Theme

European Commission
Enterprise and Industry

**Workshop on
Security of Mass
Transportation
(Berlin, 18 March 2009)**

Scope of Demonstration Programmes:

- ✓ Focus research on complex security scenarios
- ✓ Validation and demonstration of proposed new solutions
- ✓ Involvement of end users

Demonstration Programmes in five domains (*ESRAB*):

- European-wide integrated border management system
- **Security of mass transportation**
- Logistic and supply chain security
- Aftermath crisis management system
- CBRNE

Implementation of the Programme: one or a number of individual Demonstration *Projects*

- Phase 1: define strategic roadmaps and trigger awareness
- Phase 2: technically implement demo's, taking into account steps that have to follow: e.g. *standardization, procurement*

Preparing Demonstration Projects:

- ❑ Improving understanding of user requirements
- ❑ Broadening participation of potential stakeholders

Maximising the impact of Demonstration Projects (1/2):

- ❖ Testing the resulting new techniques and technologies (e.g. interoperability, etc.)...**
- ❖ Preparing the ground for certification and/or standardization (if/when appropriate) ...**

Maximising the impact of Demonstration Projects (2/2):

- ... *during and/or after end of Demonstration Project?*
- ... *by relevant (ad-hoc) Authorities?*
- ... *by (national / international) end-users?*
