Guide to Research and Innovation Funding

Federal Funding Advisory Service on Research and Innovation

In innovation competition, fast responses and simple channels of information play a decisive role. To support these objectives, the Federal Government has subsumed its research and innovation advisory services. The Federal Government's central Federal Funding Advisory Service on Research and Innovation offers companies (in particular small and medium-sized enterprises), higher education facilities and research institutions straightforward access to details on Federal, Länder and EU funding.

These advisory and information services are especially designed to support and assist new funding applications. As the first point of contact for all questions about Federal research and innovation funding, the Advisory Service in particular saves innovative companies time and ensures greater transparency.

The Federal Funding Advisory Service on Research and Innovation comprises a team of experts from various specialised areas with many years of experience in project funding.

The Advisory Service is supported by the following ministries:

- Federal Ministry of Education and Research (BMBF)
- Federal Ministry of Economic Affairs and Climate Action (BMWK)
- Federal Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection (BMUV)
- Federal Ministry of Food and Agriculture (BMEL)
- Federal Ministry of Digital and Transport (BMDV)
- Federal Ministry for Housing, Urban Development and Building (BMWSB)
- Federal Foreign Office (AA)
